

Finding Full-Text Online Access for Journals Using Discovery Search

Using Discovery Search

We will be showing two example journals: a) *Science* and b) *Science News*

1. Go to the Libraries' main page at <https://www.library.umass.edu/>. Please note that if you are not already logged into Discovery Search, you may be prompted at some point in the process to log in with your NetID and password.

Science

2. In the main search box, type *JN "Science"* (including the quotes) and **Search**. Do not change the search to eJournals. Please leave it as Discovery Search.

Search the Libraries

Discovery Search | WorldCat | eJournals | Databases | Google Scholar

ISSN: 0036-8075 (print)
1095-9203 (online)

Publisher Information: American Association for the Advancement of Science

Resource Type: Journal

Peer Reviewed: Yes

6. We have access to *Science* through different databases. Review the data ranges next to each database. The date ranges for access are in a smaller font right after the name of the database in the list above.

- Databases from different vendors will have differing interfaces and functionality. In this case, there is full text from 1880 to the most recent issue available through the **American Association for the Advance of Science (AAAS)**. If you select the **JSTOR Life Sciences Archive Collection**, you can search all journal issues, but there is delay on providing full text for 6 years. This means that the last six years of issues are not available full text. That is due to the agreement that the journal made with JSTOR to provide content through JSTOR.
- Click on the **Association for the Advance of Science (AAAS)** link for full-text access to the present.
- Once you're in the **AAAS** interface, you can see the most recent year's issues of *Science*. You can click on each issue to access the PDFs or use the dates listed above the issues to navigate to the issue that you want.

The screenshot shows the Science journal archive interface. At the top, the 'Science' logo is on the left, and navigation links 'Current Issue', 'First release papers', 'Archive' (underlined), 'About', and 'Submit manuscript' are on the right. A 'GET OUR E-ALERTS' link is also present. Below the navigation bar, there are tabs for decades (1940s, 1950s, 1960s, 1970s, 1980s, 1990s, 2000s, 2010s, 2020s) and years (2020, 2021, 2022, 2023, 2024). The 2024 section is highlighted and shows six issue covers with their respective dates and volume/issue numbers:

| Issue Title | Date | Volume Issue |
|----------------------|--------|-------------------------|
| CELLULAR DEFORMATION | 7 JUNE | Volume 384 Issue 6700 |
| CUCKOO COEVOLUTION | 31 MAY | Volume 384 Issue 6699 |
| CRACKING THE BRAIN | 24 MAY | Volume 384 Issue 6698 |
| POWERFUL TOOLS | 17 MAY | Volume 384 Issue 6697 |
| VOLCANIC MOON | 10 MAY | Volume 384 Issue 6696 |
| SEEDS | 3 MAY | Volume 384 Issue 6695 |

- If you'd like to search within the *Science* publication, go to the black bar on the top and click on the magnifying glass icon to the right of the UMass Amherst Libraries logo.

The screenshot shows the Science journal archive interface. At the top, the 'Science' logo is on the left, and navigation links 'Current Issue', 'First release papers', 'Archive' (underlined), 'About', and 'Submit manuscript' are on the right. A 'GET OUR E-ALERTS' link is also present. Below the navigation bar, there are tabs for decades (1940s-2020s) and years (2020-2024). The 2024 section is highlighted and shows six issue covers with their respective dates and volume/issue numbers. A magnifying glass icon is highlighted with an arrow pointing to it.

11. In the search interface, type the name of the article and change **Searching** from *Anywhere* to *Science*. Click **Search**.

12. This will then show results for the search, and you can click on the relevant article to view or download.

Publisher Information: Society for Science & the Public

Resource Type: Journal

Peer Reviewed: No

- There are many databases that contain *Science News*. Review the data ranges next to each database. The date ranges for access are in a smaller font right after the name of the database in the list above.
- Most of the databases have full text coverage up to 2015 or 2016. Two databases that have data ranges to the present are **Academic Search Premier** and **Flipster**.
- Academic Search Premier** is the better option if you'd like to search through the publication. If you click on it, you'll see this interface, which allows you to browse by issue or search the full publication.

Notes

Please note that when using this method to search for journals, you will sometimes you need to use the full name of the journal that appears in Discovery Search.

For instance:

- For *Developmental Biology*, you would need to search for:
 - JN “*Developmental Biology: An official journal of the Society for Developmental Biology*”
- For *Biological Bulletin*, you would need to search for:
 - JN “*The Biological Bulletin*”

If you are not sure what the full name of the journal may be, try searching in Discovery Search for an article that you know is in the journal. The result for the article will list the journal’s full name in Discovery Search.

2. Cnidocyte Supporting Cell Complexes Regulate Nematocyst-Mediated Feeding Behaviors in the Sea Anemone *Diadumene lineata*

By: Mcauley, Virginia; Thorington, Glyne U.; Hessinger, David ... In: **The Biological Bulletin**. October 2020, Vol. 239 Issue 2, p132, 11 p.; University of Chicago Press, 2020. Language: English, Database: Gale Academic OneFile

Subjects: United States; Sea-anemones -- Food and nutrition -- Behavior -- Physiological aspects; Nematocysts -- Physiological aspects; Animal feeding behavior -- Observations; Cellular control mechanisms -- Observations; Biological sciences; Observations; Physiological aspects; Behavior; Food and nutrition
